- ✓ Inventory Adjustment
- ✓ Item Lookup
- ✓ Cycle Count
- ✓ Transfer

Infor MAC-PAC XE Success Story:

"*QuikTrac*-iSeries software solution has allowed us to integrate with our Infor MAC-PAC XE software in real-time and eliminated hand writing down of transactions. Our inventory accuracy has gone from 75% up to 99.9% since we now scan everything we move in our warehouse. We use to do physical inventories once a year that took 3 days to complete. Now with our accuracy so high, we only do cycle counts in certain areas and we do not lose the 3 days during a physical. That alone helped pay for our system in three days!
