

COMPANY OVERVIEW

SNF Co, Inc., doing business as Integrated Barcoding, is a nationwide provider of barcode, RFID, and inventory control solutions, delivering integrated hardware and software systems to federal agencies, prime contractors, and commercial organizations. With over 30 years of experience, the company provides scalable, cost-effective data-capture solutions that integrate with existing ERP, warehouse, and host systems without replacing current infrastructure. Integrated Barcoding offers end-to-end services, including system design, software development, hardware supply, integration, deployment, training, and support, improving inventory accuracy, real-time visibility, and operational efficiency. The company has a proven track record delivering reliable solutions on time and within budget.

CORE COMPETENCIES

- **Barcode & RFID Systems:** Design and implementation of barcode and RFID solutions, including industrial printing, labeling, tagging, and asset identification.
- **Inventory & Asset Management:** Development of inventory control and fixed asset tracking systems that improve accuracy, visibility, and efficiency.
- **ERP & System Integration:** Integration with ERP, WMS, and host systems, enabling real-time data capture and automation without replacing existing infrastructure.
- **Mobile Data Capture & Warehouse Automation:** Deployment of mobile barcode scanning, wireless data capture, and warehouse automation to streamline tracking and distribution.
- **Software Development & Deployment:** Custom software development, including the QuikTrac platform, with flexible deployment options (cloud, on-premise, or hybrid).
- **End-to-End Solutions & Support:** Single-source provider for hardware, software, and integration, including system design, installation, training, maintenance, and support.

COMPANY DATA

- **Legal Name:** SNF Co, Inc.
- **DBA:** Integrated Barcoding
- **Business Type:** Small Business
- **UEI:** LKXAGMNDPUP6
- **CAGE Code:** 9H2N6
- **SAM Registration:** Active
- **Primary NAICS Codes:** 541511, 541512, 334111, 334112, 334220
- **Address:** PO Box 156, Harbor Springs, MI 49740
- **Work Area:** Nationwide

PAST PERFORMANCE

- Over 30 years of experience delivering barcode, RFID, and inventory control solutions to government, municipal, and commercial clients, supporting prime contractors with integrated hardware and software solutions
- Proven track record with major clients including General Motors, Eaton Corporation, Parker Hannifin, and others, delivering solutions that improve inventory accuracy, asset visibility, and operational efficiency
- Experience delivering warehouse automation, ERP integration, RFID tracking, and asset management solutions on time and within budget while meeting government and commercial requirements

DIFFERENTIATORS

- **Proven Industry Experience:** Over 30 years of experience delivering barcode, RFID, and system integration solutions across government and commercial sectors.
- **Single-Source Solution Provider:** One-stop provider for hardware, software, and integration, reducing vendor complexity and improving project efficiency.
- **Seamless System Integration:** Proven ability to integrate with existing ERP and host systems without replacing current infrastructure.
- **Proprietary Technology:** Utilizes the QuikTrac platform to deliver flexible, scalable, and real-time data capture solutions.
- **Nationwide Service & Support:** Provides nationwide installation, support, and maintenance with a strong record of on-time, on-budget delivery.
- **Scalable & Cost-Effective Solutions:** Delivers tailored solutions designed to meet the needs of both small and enterprise-level organizations.
